TRACKWELDER X4

Botswana Railways invites fully qualified and experienced professionals with a good record to apply for the position of a **Track Welder** under Civil Engineering Section .

Main Purpose of the Job:

Reporting directly to the Permanent Way Inspectors, the incumbent is tasked to maximize safety, reliability and availability of the rail track through onsite construction and maintenance of permanent way, with emphasis on track welding to meet business needs of Botswana Railways.

Position Requirements:

Educational Qualification:

Minimum National Craft Certificate in Welding and Fabrication plus conversion training in track welding.
Valid heavy-duty driver's license.

Experience:

A minimum of two years of experience in track welding – covering exothermic (thermit) welding and arc welding/repair of wheel spin burns. Experience in flush-butt welding of rails will be an added advantage.

Key Result Areas:

- Ensure Availability and reliability of welding materials, equipment and personnel prior to execution of work.
- Preparing the rails before welding.
- Ensure the weld meets required standards as detailed in the NRZ Welding Manual.
- Adherence to Trains Working Regulations and safety regulations.
- Timeous response to emergency situations.
- Self-development

Remuneration

Botswana Railways offers competitive salary and benefits.

Interested candidates who meet the above requirements with the ability to make a significant contribution to the Engineering Field, within the operations of Botswana Railways, may forward their applications together with their curriculum vitae, certified copies of qualifications and at least three references of position in authority to recruitment@botrail.bw or send to: -
